

Grow with Confidence

Interface offers cannabis operators innovative and cost-effective services to safeguard business, ramp-up network connectivity and comply with regulations.

- ✔ Secure your retail stores, dispensaries, grows and products 24/7 using interactive remote video monitoring
- ✔ Roll-out secure networks to scale operations
- ✔ Leverage existing cameras and sophisticated cloud-based monitoring with upgraded Network Video Recorders
- ✔ Implement POS exception reporting to prevent shrink and gain operational insights
- ✔ Give lone workers a smart, connected, wearable device to ensure safety

Tackle Challenges

Multi-state operators need scale

Our relentless focus on standardization and scale gives cannabis operators the ability to quickly roll out multi-state operations.

Regulatory compliance can be taxing

Our team of domain experts ensure that compliance needs are factored in our design of security and networking solutions.

Preserving margins is key to growth

Our flat-rate, single invoice spanning security, network and operations puts an end to dealing with multiple vendors and delivers economies of scale.

Ensure employee and customer safety

Our sophisticated monitoring solutions seamlessly integrate with your existing cameras and our wearable personal protection monitoring devices ensure lone worker safety protocols.

Innovate Faster and Grow Rapidly

With Interface, cannabis retailers and growers can enjoy the benefits of a completely managed service that's designed to optimize cost and deliver the flexibility needed to grow.

- ✔ 6 million security events managed every year
- ✔ 95% false alarm fines averted
- ✔ 65K customer sites monitored
- ✔ 88% savings over security guards
- ✔ 4K field technicians
- ✔ 27+ years in business

Talk to Interface solution experts to understand how cannabis operators can innovate faster and grow rapidly with business security systems.
