

iVR/NVR AVI Saving Patch (Indeo Codec)

This document describes the installation of the Indeo® Codec patch (video version 5.11, audio version 2.5) for iVR/NVR video recording devices. Follow each step of the installation process in the order presented.

- 
DOWNLOAD/COPY EXECUTABLE
 Download and/or copy the patch file (**iv5setup.exe**) to the video recording device.

- 
LAUNCH EXECUTABLE
 Navigate to and double-click the patch file to launch the installation wizard.

- 
CONFIRM INSTALLATION
 Click **Yes** to confirm the Windows® security prompt, allowing installation on the device.

- 
COMPLETE WIZARD
 Complete each page of the installation wizard, as detailed below. Pay special attention to the “Installation Notes” column, which provides information about options that should and should not be modified during the installation.

Wizard Page Number/Title <i>Order and display title of the wizard pages</i>	Installation Notes <i>Important notes detailing custom options</i>	Action <i>Button to advance the wizard</i>
1 - Indeo 5 Setup	—	Next
2 - Software License Agreement	—	Yes
3 - Choose Destination Location	—	Next
4 - Setup Type	Select the Custom option <i>(refer to Figure 1).</i>	Next
5 - Select Components	Clear the check mark from <i>ALL</i> options other than the “Indeo Video 3.2 Codec” option. Scroll down to see all options <i>(refer to Figure 2).</i>	Next
6 - Choose Destination Location	This page displays twice due to the customization option selected on Page 4. Do NOT modify the installation location.	Next
7 - Start Copying Files	—	Next
8 - Setup Complete	—	Finish
